Chapter 1

One day there was a selfish and greedy pirate called Daniel.

He didn't care about his only family member, his brother Phillipe.

Phillipe was a kind and caring brother who was also a pirate but his brother on the other hand only cared about treasure.

Phillipe was basically Daniel's servant. Daniel was one of the greatest pirates of all time. He had found the most treasure of them all, but he hadn't found all the treasures yet. He hadn't found the mystical

treasure that was found at end of a rainbow. It was called "The truth of lies". He was desperate to get it. The only thing was he didn't know where it was and why it was called the truth of lies. It was very hard to find but he wanted to get it anyways. Phillipe called out to his brother Daniel and said he found a bottle with a treasure map in it. His brother Daniel

came as fast as he could. Then Daniel snatched the map from his brother Phillipe. When Daniel opened the map he was so astonished because it was a map to find the treasure of the truth of lies. He got to the sail and read the map, it said, that the truth of lies was near the Capron cave. Wich wasn't very far away. He was finally at the Capron cave then he saw the rainbow. He excitedly read the map. It said that they had to face

two challenges, The first one was to find the location and the second is a mystery. He didn't care if there were challenges, he just wanted to get the treasure. As he got closer, the rainbow got further. He didn't understand! Phillippe on the other hand understood what to do. He went on a small boat while his brother Daniel was busy trying to figure things out. Phillippe sailed to

the rainbow using his small boat.

He knew why it was called the "truth of lies!" It was called that because it was an ancient trick, only those who tell the truth could continue their journey. However those who lie shall not. He had been honest so he could continue his journey but his brother Daniel must have been lying so he could not continue his journey. Phillippe wondered what his brother Daniel had

been lying about, He finally arrived at the rainbow. He started digging for the treasure meanwhile his brother Daniel was still at the ship trying to figure things out. Daniel saw his brother Phillip's tiny boat next to the rainbow. Daniel was shocked his brother had already figured it out. Then Daniel went over the name of the treasure the
